

# poetic rapportage

---

## *What is poetic rapportage?*

**Cytopoetics** is the only consultancy in the National Capital Region, and perhaps in Canada, that offers this unique service. **Greg Frankson** will attend your meeting, conference or convention to record the discussions in the same way a standard rapporteur would do, but with a twist. At designated points in the program, Greg will provide a report-back to the assembled participants – in spoken word poetry he has been writing while simultaneously taking notes. It's a novel way to creatively capture the results of your activities!

And best of all, you will have the ability to publish the poetry from your event (your artistically created record of proceedings) in newsletters and other publications associated with the event!

---

## *What are the requirements for poetic rapportage?*

Your organization will need to provide the following:

- a laptop computer with a memory stick
- a notepad and a pen
- access to a printer for immediate printouts

And that's all you need to completely change your idea of "note-taking" forever!

---

## *What else can you get from Cytopoetics?*

We also offer the following to business, education and the community:

- Spoken word performances and poetry writing workshops
- Keynote addresses (motivational and/or topic-specific speeches)
- Poet-in-Residence (where Greg Frankson will write poems about your event as it happens)
- Facilitation, workshop leadership and/or emcee services

---

## *Where else has Cytopoetics provided creative services?*

Previous regional, national and international clients include: the **Ottawa Police Service**, the **Ontario Federation of Labour**, the **Canadian Conference for the Arts**, and the **International Initiative for Mental Health Leadership**. As more people discover poetic rapportage, the phone has been ringing regularly. Make sure you get the date you have in mind – book Greg for your event today!
